

## OUR GOAL

We produce new candles from old pieces of candle as raw material.

In this way, we recover light that otherwise would have been thrown away.

The lights are sold in NMS Gjenbruk's stores in Norway, where you can also hand in light pieces.

The Norwegian Mission Society's (NMS) motto is to share the faith in Jesus, fight injustice, and eliminate poverty. The profits from the sale of these candles go into this work.

# Knausen Lysstøperi

Old pieces of light become new lights

## Volunteering

Our business is run by volunteers who want to spend time together with others to make a good product based on old pieces of light.

Working together in communities is important, and to have someone to "talk to".

Most of the people who work with us are retired with a variety of work experience.

«The best thing about working at Knausen Lysstøperi is that I get to use my abilities for greater good, and it is a good working community!"»

## Tasks

Our tasks consist of:

- Sort collected pieces of light into different colours
- Making new candles based on melted mass in various forms
- Dip candles
- Pack the candles in boxes

## Custom assignment

Together with the management, you will be assigned tasks that suit your ability to work, and with the possibility of rotation if necessary.

You will receive training in the work you are assigned to.

## Products

All our candles are handmade, dyed through with a long burning time, and based on old candle stubs.

We make:

- Stake lights
- Candle balls
- Spiral balls
- Pyramids
- Cones
- Sponged candles - balls, pyramids and cones
- Hearts
- Cubes in various sizes
- Holy Three Kings candle
- Rainbow lights
- Fire lighters
